DETAILED ACTION

1. The applicant's Response to the Office Action has been entered. The applicant's response was received on 7 JAN 97 and has been entered as paper no. 3. The claims pending in this application are **Claim(s) 2-40** with Claims 3-19 and 26-40 withdrawn as the result of a restriction requirement. Rejections and/or objections not reiterated from the previous office action are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

SEQUENCE RULES

2. This application complies with the sequence rules and the sequences have been entered by the Scientific and Technical Information Center.

35 USC § 112- 2ND PARAGRAPH

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

CLAIM REJECTIONS under 35 USC § 112- 2ND PARAGRAPH

4. **Claim(s) 21-25** is/are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 21 is indefinite because of the phrase "two or more of the sets of primers of Claim 20." Note that Claim 20 is directed to a kit which does not explicitly recite any primers, therefore, it is unclear what is intended. Please clarify.

Claim 22 is indefinite because of the phrase "and dideoxynucleotide" lacks proper antecedent basis in Claim 20.

35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness

rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligations under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103.

CLAIM REJECTIONS UNDER 35 USC § 103

7. **Claim(s) 2, 20 is/are** rejected under 35 U.S.C. 103(a) as being unpatentable over Ugozzoli et al. (1992) in view of the Stratagene Catalog (1988).

Claim 2 is drawn to a kit comprising two elements including an array with certain defined structural characteristics and one or more locus-specific tagged oligos with certain defined structural characteristics.

Ugozzoli et al. teach a method which utilizes the two elements recited in Claim 2. See for example Figure 1. Ugozzoli et al. do not teach a kit comprising these reagents. However, as evidenced by the Stratagene Catalog teaching, it was well known at the time of the invention to place the reagents needed to perform a nucleic acid based assay into a kit format. Therefore, absent an unexpected result, it would have been *prima facie* obvious to the ordinary artisan at the time of the invention to modify the teachings of Ugozzoli et al. with the teachings of the Stratagene Catalog wherein the reagents necessary to perform the method of Ugozzoli et al. are placed into a kit format. The ordinary artisan would have been motivated to make this modification in order to take advantage of the savings and efficiency afforded by kits.

Claim 20 is drawn to set of primers which set is to comprise a two elements: 1) pair of primers with certain defined structural characteristics and 2) an extension primer with certain defined structural characteristics.

Ugozzoli et al. teach a method which utilizes the two elements recited in Claim 20. See for example Figure 1. Ugozzoli et al. do not teach a kit comprising these reagents. However, as evidenced by the Stratagene Catalog teaching, it was well known at the time of the invention to place the reagents needed to perform a nucleic acid based assay into a kit format. Therefore, absent an unexpected result, it would have been *prima facie* obvious to the ordinary artisan at the time of the invention to modify the teachings of Ugozzoli et al. with the teachings of the Stratagene Catalog wherein the reagents necessary to perform the method of Ugozzoli et al. are placed into a kit format. The ordinary artisan would have been motivated to make this modification in order to take advantage of the savings and efficiency afforded by kits.

8. As regards **Claims 21-25**: the examiner has not addressed the patentability of these claims over the prior art since the exact structural limitations of the claimed compositions can not be determined due to the ambiguity of Claims 21 and 22. Please clarify. However, do note that Shumaker (1996) teach distinctly labeled ddNTPs.

RESPONSE TO APPLICANT'S AMENDMENT/ ARGUMENTS

9. Applicant's arguments with respect to the claimed invention have been fully and carefully considered but are moot in view of the new ground(s) of rejection.

CONCLUSION

10. **Claim(s) 2 and 20-25** is/are rejected and/or objected to for the reason(s) set forth above.

11. Applicant's amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
